Overview

Background of the project

01

Difficulty of Graduation Exhibition due to COVID-19

Summary

Because of global pandemic of COVID-19, We cannot meet and interact each other on school. This is also on graduation exhibition. Graduation exhibition is one of the biggest event on campus life, so we thought that "What if we can open exhibition on metaverse world?".

Goals

Final Goal and Detailed Goals of the project

02

Make an Exhibition Hall for Graduation In Metaverse Platform – **VRChat**

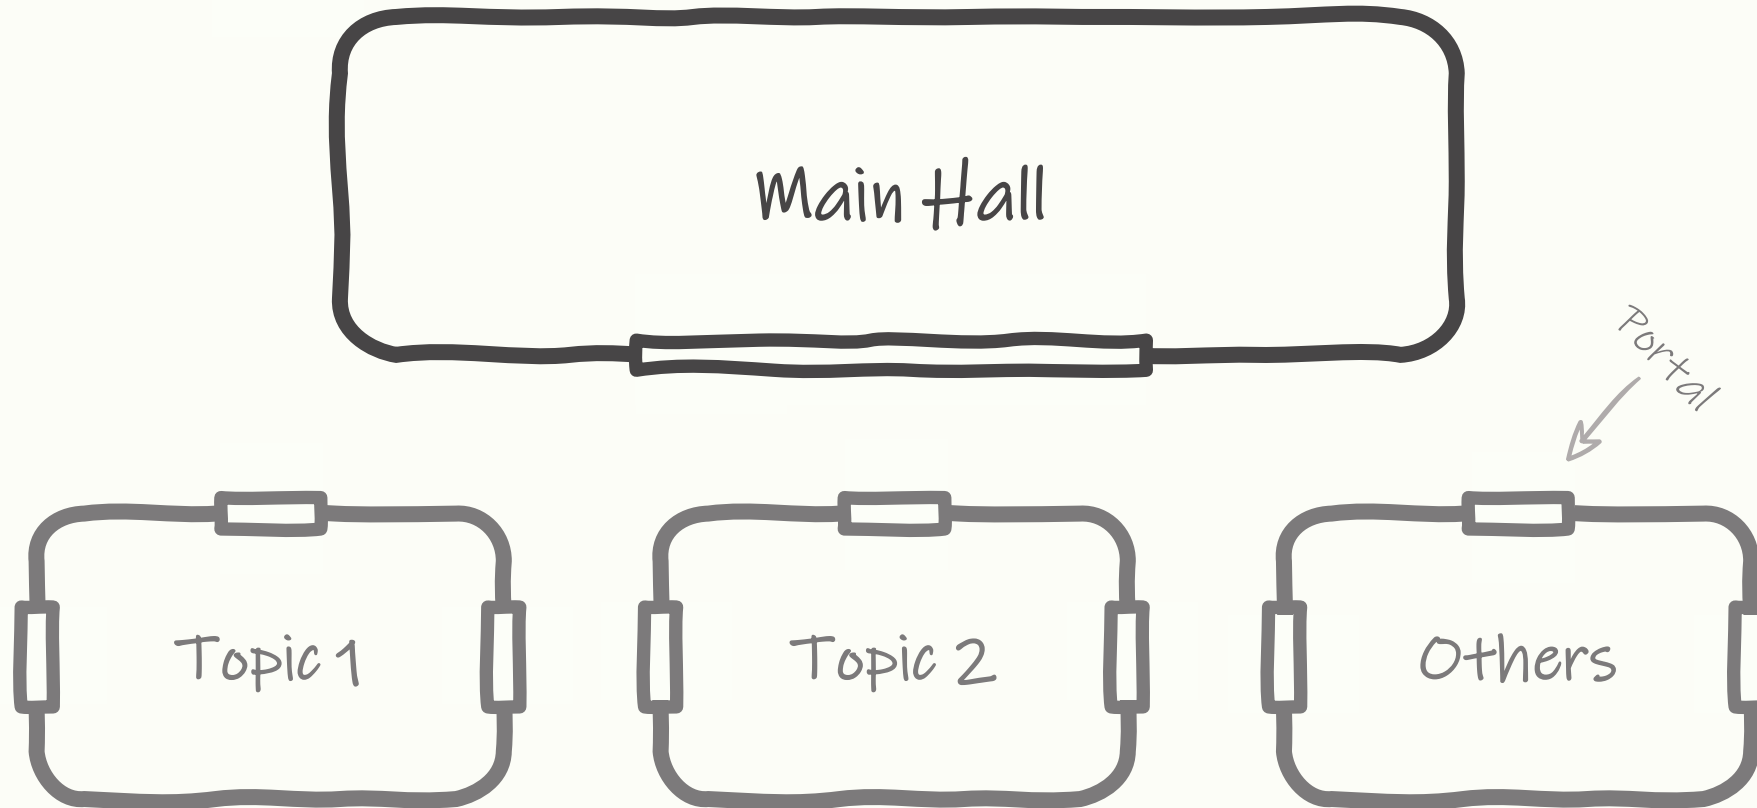

Make an Exhibition Hall for Graduation In Metaverse Platform – **VRChat**

- ✓ Undergraduate students register their work
- ✓ Guests can write memo on Guest Book
- ✓ Guests can give feedback to students' works
- ✓ Students can present their work online

Methods

World Design, Technologies, and Tools

03

- When users enter, they spawn in the main hall.
- Users can move to other rooms by portals.

Participant Registration

- Collecting user's information
- Giving permission for registering graduation work/paper

Guest Book

- Logging system that allows visitors to leave a public comment
- Visualizing the guest book

Feedback

- Recommendation system such as Like it!, Interesting!, and Amazing!
- Comment system for QnA with researcher

Poster
Exhibition

- Upload PDF
- Magnify the poster when clicking it

Playing
Demo Video

- Set-up YouTube link
- Play the video when clicking the play button

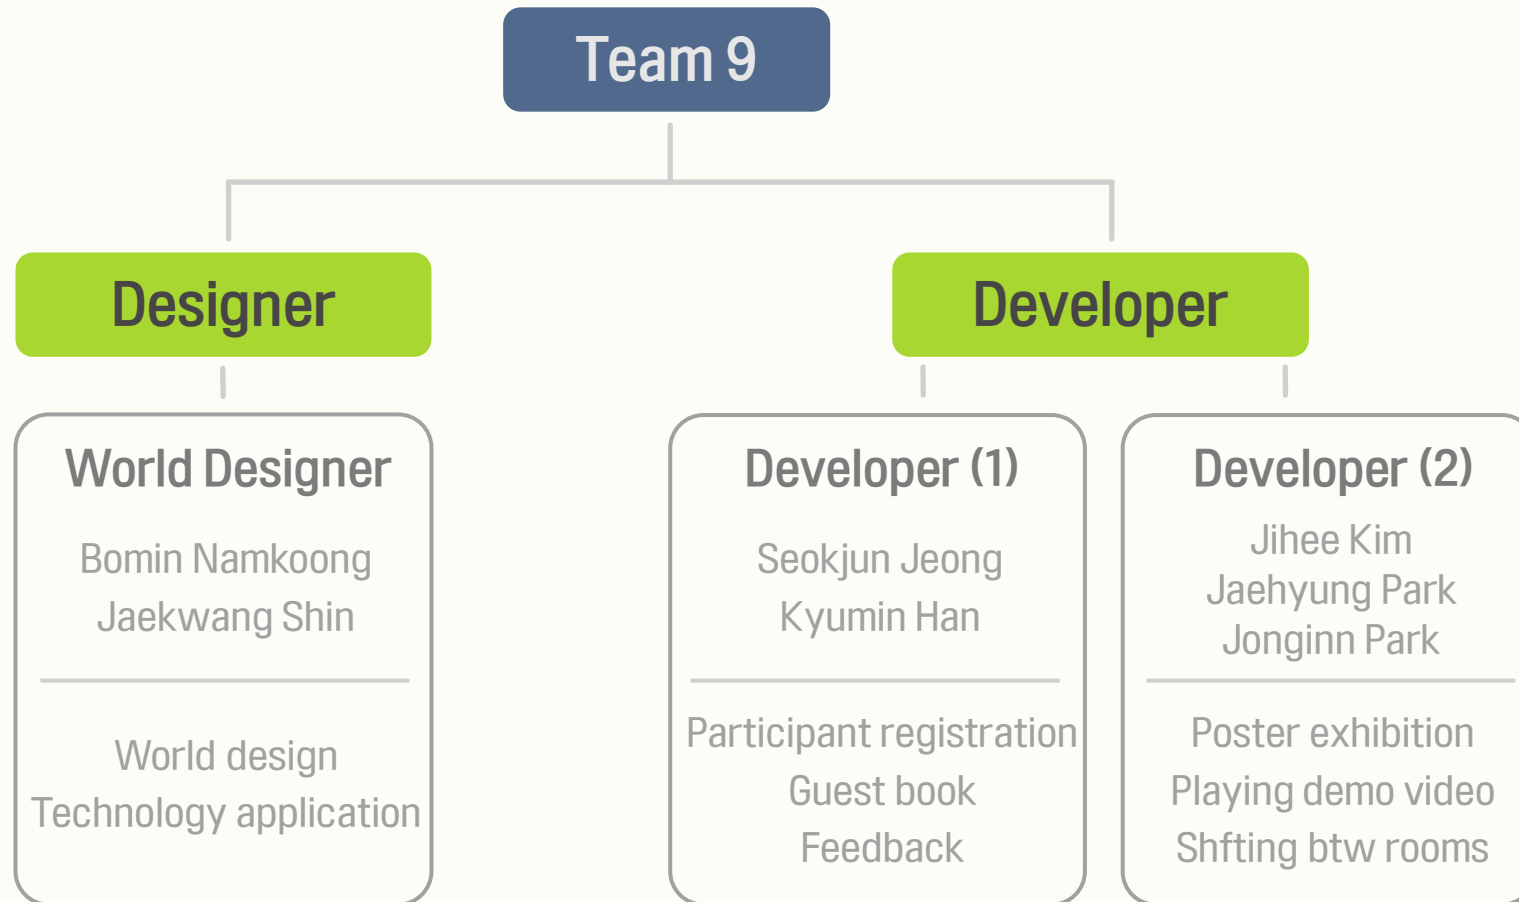

Shifting
Between Rooms

- Shifting between rooms
- Move to other projects
